

Hilton Ramp Launch Procedures

1. Tournament officials will stop folks at this point on Saturday AM to make sure that the individual has had their boater safety check (their boat will be flagged). If a safety check is need, the boat will be directed to the designated area.
2. Livewells checked here. Waiting point for ramp access. Boat captains reminded to truck cut headlights off while backing. The boat numbers and angler tournament cards will be distributed here.
3. There is room for 2-3 boats to launch at the same time. Vehicles will be directed when to approach ramp.

Hilton Ramp Launch Procedure

This area is a no wake zone, account for extra travel time and be respectful.

Boats will begin to organize in sequential order until prompted by hearing their number called to proceed to Law enforcement's boat at a slow idle and will display boat ID # on the DNR's starboard side. Boat Captains will be asked to pull the kill switch to ensure it's operating properly. (if boat fails to restart, move to side or back to courtesy ramp to resolve issue)

- Flight 2 Blue: boats 32-62
Launch 20 mins after safe light, return at 2:20

****The return will be the same procedure, reduce to an idle before approaching LE boat and display your boat ID # continuing at an idle speed back to the ramp****
