

Neighbors for Clean Water

Stormwater POND Conference

OCTOBER 22ND, 2015

USCB Gateway Campus, 1 University Blvd; Bluffton, SC

8:30am - 4:00pm

Stormwater ponds, (i.e. man-made “lakes” or “lagoons”) are important for controlling floods and helping to protect local water quality. But to do this, they need to be functioning well.

The Neighbors for Clean Water Stormwater Pond Conference will provide the latest information and resources on managing these stormwater features.

Topics will include:

- * New maintenance requirements
- * Aquatic Weed Management
- * Fish Stocking and Harvesting
- * Managing Ponds with Rookeries
- * Nuisance Wildlife Management
- * Algae Prevention and Management
- * Erosion and Shorescaping
- * Dredging
- * Protecting Water Quality Before the Pond
- * Tour of USCB Campus ponds
- * Lots of resources for you!

Who should attend:

- * Pond Owners
- * Homeowner and Community Association Representatives
- * Pond Management Professionals

5.5 PDH
