Visiting from New York, Nature Nick's Animal Adventures is a fast-paced educational wildlife show. Audiences will be enraptured with delight as they see a ten-foot long python or when a Eurasian Eagle owl stretches out his six-foot wingspan! All Shows feature five to six trained exotic animals including, but not limited to: owls, falcons, snakes, alligators, foxes, armadillos, turtles, and even a Chilean flamingo! "Nature" Nick personally presents all shows himself. He is a TV personality, author and professional animal trainer. Show also includes a meet and greet where audience members can interact and have their photos taken. Nature Nick and his animals have been featured on The Martha Stewart Show, Fox & Friends, Good Day New York, Good Morning America, and The Today Show!

The Hawg Trough with Jim Vitaro

The Hawg Trough is a mobile 5,000 gallon fish tank that is transported to locations around the country as an attraction at boat shows, sportsman expos, fairs, and festivals. Once on location, the tanks are filled with water and stocked with fish. Using the PA system, your guest fishing expert or the Hawg Trough Fish Tank operator can provide periodic seminars and fishing demonstrations for the purpose of education and entertainment of the attendees at the event.

The Hawg Trough attracts crowds while demonstrating fishing techniques. Audience participation by both seasoned anglers and freckle faced kids keeps the crowd entertained throughout the day. Sponsors from the Fishing Industry often sponsor product giveaways to promote their product as well as please the attendees.

Looking for a crowd stopping attraction at your boat show, sports expo, fair, festivals, or outdoor event? Look no further! We provide the tank, add the water and the fish, and the fun begins! Our Hawg Trough provides an excellent source of entertainment for young and old, seasoned anglers and novice fishermen.

FRIDAY

2:00-3:00 How to Choose Your Next Gun Dog Pup & Introductions to Place Boards

- Presenters: Kim Parkman – kimparkman@ftc-i.net
- Business: Pocotaligo Kennel
- Synopsis: Come join the founders of black creek wildlife center to learn about animals from around the world. You will even be able to meet some from your own back yard! Regardless of breed, education is the key to success. Do your homework – familiarize yourself as to the health tests required to obtain a CHIC certification in your breed (www.offa.org) , choose a responsible breeder who is following the CHIC guidelines for their breeding stock ~ only then choose your pup. Once your pup comes home, training should begin right away. Place boards are tools that help the pup learn. Stop by and see some of the ways place boards can help you with your new pup.
