#### ITEM I. READING OF THE MINUTES

The Commission adopted a motion to dispense with the reading of the Minutes of the January 16, 1987 Commission Meeting and approved them as submitted.

#### ITEM II. COMMENTS

Dr. Timmerman advised the Commission that we have experienced a 2.6% budget cut this year and the Budget and Control Board is again meeting and we may experience up to another 1% cut this year. He noted that we have resubmitted our request for exemptions on Law Enforcement and the Magazine and we have noted the severe damage that has occurred to our impoundments at Murphy and Cedar Islands. Dr. Timmerman noted that he has recently been in Washington and asked to serve as Chairman of the Federal Budget Committee for the Department of the Interior. Dr. Timmerman distributed a list of projections on licenses fee revenues and went over this with the Commission. He noted that overall, we have had about an 11½% buyer resistance on hunting licenses and 11.1% buyer resistance on fishing licenses. Dr. Timmerman noted that the Resident WMA permits are off significantly by about 48% for residents and 62% for non-residents. In addition, he noted that we have experienced a significant decrease on sales of the 10-day non-resident fishing licenses. Dr. Timmerman noted that last year on the Sportsmen's license, which was \$22.50, we had allocated \$8.50 of this to the Wildlife Management Area permit. He stated that this year's Sportsmen's license costs \$44.00 and he recommended to the Commission that \$25.00 be allocated for the WMA permit. Following discussion, the Commission adopted a motion to approve this recommended allocation by Dr. Timmerman. Dr. Timmerman informed the Commission, that with the current projected sales in WMA permits and providing a payment of \$130,000 to the U. S. Forest Service, we

project that we will be able to pay approximately \$1.50 per acre to the WMA Cooperators this year.

Dr. Timmerman informed the Commission that we have received numerous requests for information on boat ramps throughout the state and we are developing a boat ramp map, using county maps for distribution.

Dr. Timmerman informed the Commission that he had recently met with the Wildlife Subcommittee of the Ways and Means Committee and we had a good reception by this subcommittee. He noted that we will be seeking to get funds restored from our budget cut and also making a special effort to secure funds for our aircraft.
