

## 2007 Inland Sweep Annual Report

---

The 19th annual Beach Sweep River Sweep statewide clean up occurred on September 15th, 2007 from 9am-12pm. Weather conditions were variable across the state with scattered showers being reported in several areas. In most places the water levels allowed suitable access. For the inland portions of the state, site captains in 34 counties reported holding Sweep events. 94 sites were registered by site captains and of those data were received for 42 sites for a response rate of 45%. A response was considered to be a communication from the site captain regarding the number of volunteers, amount of trash collected (either by weight or bags), and approximate miles covered. Data from the event are presented below in several tables. If you have further questions, please contact

David Lansbury  
Inland Coordinator, Beach Sweep River Sweep  
PO Box 12559, 217 Ft. Johnson Rd  
Charleston, SC 29422  
843-953-9335
